AsindTM PANEERCHECKTM

RAPID PANEER ADULTERATION TESTING KIT

FOR RAPID SCREENING OF
ADULTERATION
IN PANEER

DETECTION PARAMETERS

Qualitative: presence / absence

1	UREA	PRESENCE / ABSENCE
2	STARCH	PRESENCE / ABSENCE
3	FORMALIN	PRESENCE / ABSENCE
4	ALIZARIN	PRESENCE / ABSENCE
5	SALT	PRESENCE / ABSENCE

? What are PaneerCheck?

PANEERCHECK is a patented, ready-to-use multiplex paper sensor developed by NIFTEM-Kundli for simultaneous qualitative screening of five adulteration and quality parameters in paneer. Its colour-based result makes on-site checks fast, portable and easy to interpret.

Why choose PaneerCheck?

- ✓ **Five-in-one**- simultaneous multiplex screening
- ✓ **Field-ready**- no specialised equipment required
- ✓ **Easy to use**- insert, develop and match the colour
- ✓ **Practical**- room-temperature storage and good shelf life
- ✓ **Protected technology**- patent granted and copyright protected

How it works?

- Dip** - Dip in the Paneer sample
- Remove** - Remove and wait
- Match** - Match with the provided color scale.

VALIDATED PERFORMANCE
NABL & FSSAI-notified laboratories
